PT3 Firmware Update Procedure

## Applicable model

Pocket TrapMan PT3

Required items

- Windows 11 PC
- USB Type C cable (USB-IF certified)

Precautions for firmware update

- Make sure the PC is connected to an AC power supply.
- Make sure that the PT3 battery level is at least 50% before starting the update.
- Do not disconnect the USB Type C cable during the update.
- Do not remove the PT3 battery during the update.

How to check the PT3 firmware version

1. Turn on the PT3.
2. The startup screen will appear.
3. "Ver. C.xx.xx.xx" indicates the current firmware version.

Update the firmware

1. After extracting the downloaded file, the following files will be generated:
   - PT3_firmware_updater.exe
   - PT3_firmware_updater.exe.config
2. Double-click PT3_firmware_updater.exe.

   The following window will be displayed.

3. Turn ON the PT3.
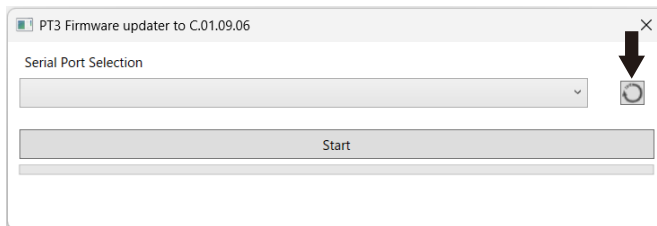

4. From the settings screen, switch to a firmware update mode.
