Energy Monitoring System

EcoBrowser®

Maximize profitability by visualizing energy performance

EcoBrowser enables the integrated visualization of steam, electricity, fuel, water and compressed air utilities, collecting data from sensors/PLCs into a unified browser-based interface for clearer plant energy management.

EcoBrowser System Concept

- Total Energy Consumption
- Specific Energy Consumption (electricity and fuel)
- Cost

- Aggregated Data (30 min. intervals)
- Display aggregated data by time period, area, equipment, or sensor)

► Contact TLV to learn more about energy saving programs and steam system optimization.

TLV INTERNATIONAL, INC.

881 Nagasuna, Noguchi, Kakogawa, Hyogo 675-8511, JAPAN
